EXPERIENCE

Graduate Assistant
Sep 2026 – Present
Ph.D. Hub at NYU Tandon

- Training the NYU AI chatbot for current and prospective doctoral students by mapping likely question types and testing them across varied phrasings to assess answer accuracy
- Researching engagement across 500+ doctoral students to find gaps in Hub outreach, and creating flyers, marketing videos, and website updates to reach them more effectively

Product Design Intern
June 2026 – August 2026
Yerba Buena Gardens Conservancy

- Led end-to-end design of a mobile platform to grow Gen Z engagement at YBG, after research showed 5 of 6 Gen Z interviewees didn't recognize YBG because its outreach wasn't on the channels they use
- Interviewed 6 Gen Z users and 5 YBG staff (all of whom flagged this age group as a gap) and ran 2 usability studies; turned insights into 4 core features and iterated Figma prototypes to 84.8% task success and a 70 SUS score
- Built a Figma design system (components, variants, auto-layout) and coded it into a functional MVP with Lovable and Cursor, giving YBG its first Gen Z-facing channel, with implementation documentation so their IT team could launch it

UX Design Apprentice
June 2025 – Aug 2025
BRIDGEGOOD

- Conducted 12 stakeholder interviews and research sessions with undocumented individuals, distilling findings into 3 design priorities for a mobile app connecting users to verified legal resources, built in partnership with 5 organizations
- Raised task success from 30% to 70% across 2 rounds of moderated testing (n=10) by addressing low user trust with State Bar-verified links, a map of in-person locations, and an explanation of how resources are sourced
- Presented the final concept and research findings at a BRIDGEGOOD showcase hosted at Wells Fargo HQ

PROJECTS

UX Designer
Sep 2026 – Present
Active Portfolio Management with Machine Learning and Time Series Forecasting | NYU VIP

- Designing dashboards to visualize time series and strategy performance metrics (Sharpe ratio, win rate etc.) for 6 ML forecasting models undergoing stress testing and investment strategy development
- Adapting open-source dashboard code with AI-assisted development tools and simplifying financial data into a clear interface for the team to compare model performance

Product Designer
Nov 2025 – Present
AtlasTax (Independent Project)

- Designed a mobile tax-filing app for the 1.2M international students in the US; interviews with 12 F-1 and OPT students found 75% were unaware of Form 1040-NR and 83% weren't confident their filing was accurate
- Ran 2 rounds of usability testing (3-person think-aloud, then 15 F-1 students unmoderated) and redesigned 4 broken flows, including adding a clear file action and explaining why sensitive questions like SSN are asked; now coding a functional prototype with Claude Code to test technical feasibility beyond Figma
- 86.7% of testers preferred AtlasTax over their current method and 93.3% reported reduced filing anxiety; took it from prototype to a business pitch in 3 weeks, winning 2nd place at the Lam Family College of Business Product Pitch

MARKETING & LEADERSHIP

Marketing Commissioner
Aug 2026 – Present
NYU Tandon Graduate Student Council

- Designed social media flyers promoting NYU Tandon Graduate Student Council events and initiatives, creating engaging visuals aligned with GSC branding

Marketing Manager
June 2025 – May 2026
Campus Recreation Department at SFSU

- Led and mentored a 28-person student team across graphic design, video/photo, social media, and brand ambassadors and delivered 15+ marketing requests weekly for 5 Campus Recreation programs while contributing design work

President
Aug 2025 – May 2026
Industrial Designers Society of America Student Chapter at SFSU

- Reinstated the chapter in 2023, hosting 21 events and founding a mentorship program

EDUCATION

New York University
M.S. in Emerging Technologies (Conc. in User Experience Design)

San Francisco State University
B.S. in Industrial Design
Minors in Visual Communication Design & Marketing
GPA: 3.9 (Dean's List)

CERTIFICATIONS

Google UX Design
Coursera – May 25

SKILLS

Rapid Prototyping
UI/Visual Design
Usability Testing
Information Architecture
Design Systems
Design Research
Data-Visualization
Wireframing
Illustration
Storyboarding
Interaction Design
AI-assisted Prototyping

TOOLS

Figma
Adobe Illustrator
Adobe Photoshop
Adobe InDesign
Procreate
Miro

AI & DEVELOPMENT

Lovable
Cursor
Claude Code
HTML/CSS
P5.js
